Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a method of slice selective magnetization preparation for moving-table MRI by defining a fixed imaging slice complete with determination of an optimal imaging volume, the determination of an offset value from a product of translation distance of a spin at a user-defined TI, determination and application of an amplitude of a slice selective gradient applied to the imaging volume, and a gyromagnetic ratio. The preparation phase acting as a precursor to translation of a prepared region of interest into a fixed imaging slice and applying an imaging RF pulse to the fixed imaging slice to acquire MR data of the prepared optimal imaging volume area of interest.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
